Letter of Appreciation

It is with immense pride and joy that I am writing to express my appreciation for the work that your firm Entry India is doing in the USA by making it easy for Indian SMEs to seamlessly expand their business in the US by selling their made-in-India products or services.

The Government of India's key mandate to stimulate export earnings is providing plentiful opportunities for Indian SMEs including manufacturers and startups to make exponential growth. I am delighted that Entry India's unique handholding approach enables them to discover & implement new business models to create bigger winnings in the world's largest market, accelerating GoI's export agenda.

Your unflinching commitment to India's growth story deserves special attention. I place on record my deep appreciation for your efforts to positively influence the Indian SMEs taking India to new heights.

I take this opportunity to congratulate Entry India's founder Navin Pathak and his entire team and assure to extend all possible support in my capacity.

With Warm Regards

Dr. Badri Narayanan Gopalakrishnan
